Subject: Reminder Lab Safety Coordinator's meeting
Attachments: Laboratory Acquired Infections white.pdf; Laboratory Acquired Infections.pdf

Hi all

Just a reminder that we have a Lab Safety Coordinator's meeting scheduled for next week on Wed January 23, 2013 at 9:30 am in Draper 102.

Please find attached the presentation on lab acquired infections from our last session (in 2 formats).

This coming session Vince Chase will be presenting and discussing Laser safety and the curious places in which we find lasers.

As usual, there will be refreshments and we look forward to your questions and comments.
Please let me know if you cannot attend

Also, just a reminder to update your training manager lists with new individuals to the labs this semester, and to email individuals who have expired trainings. (PS we will be doing a training check soon)

Thanks for your continued efforts
Chris
